

## Cyclohexyl isocyanate

Trade Name:	Cyclohexyl isocyanate
Chemical Name:	Cyclohexyl isocyanate
CAS:	3173-53-3
EC:	221-639-3
Synonyms:	Isocyanatocyclohexane Isocyanic acid cyclohexyl ester
Molecular Formula:	$C_7H_{11}NO$
Structural Formula:	
Molecular Weight:	125.17
Characteristics:	colourless to yellowish translucent viscous liquid with pungent smell, lachrymatory

### Quality values

<b>Content of cyclohexyl isocyanate (GC)</b>	min. 99.0 %
<b>Other impurities every single (GC)</b>	max. 0.10 %
<b>Sum of unknown impurities (GC)</b>	max. 0.50 %
<b>Organic solvents</b>	max. 0.1 %

**Special customer request is under discussion.**

### Storage

Store in original tightly closed containers in a dry, cool and well-ventilated area.  
Thoroughly protect from atmospheric moisture.  
Store locked up.
